| The MAILING DATE of this communication appears on the cover sheet with the carrespondence address Priod for Reply | | | | | | | | | |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (8) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). | | | | | | | | | |

Application/Control Number: 10/719,256

Art Unit: 3635

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 24 November 2003 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the information disclosure statement does not include the patentee and issue date of each patent listed. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any resubmission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Claim Objection

Claim 8 is objected to because of the following informalities: In claim 8, line 25 of page 18, the phrase "generally sheet" appears to be in error. This could be corrected by deleting the word "generally". Otherwise, claim 8 is allowable.

Claim Rejections - 35 USC § 103

Application/Control Number: 10/719,256

Art Unit: 3635

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over US

Patent 3,251,399 to Grossman in view of US Patent 6,141,921 to Leeuwenburgh et al.

Claim 4:

Grossman discloses a flexible transparent window covering (14) such as plastic (column 1, lines 56-60) that can be easily applied and secured to the window to prevent the ingress of dust and weather elements (column 1, lines 19-24). The covering includes a foldable panel (16) providing a ventilation port when opened.

While Grossman fails to disclose the use of adhesive strips for attaching the covering, the use of adhesive tape for attaching a weather barrier to a window is well known in the art. Leeuwenburgh et al. teaches the attachment of a plastic barrier (10) using adhesive strips (12) which is easy to apply and removable (column 2, lines 53-55).

In view of Leeuwenburgh et al., it would have been obvious for one of ordinary skill in the art at the time the invention was made to use adhesive tapes instead of Velcro strips on Grossman's window covering, as Grossman is also concerned with providing an airtight covering that is removable (column 2, lines 36-41).

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over US

Patent 3,251,399 to Grossman in view of US Patent 6,141,921 to Leeuwenburgh et al.

as applied to claim 4 above, and further in view of US Patent 6,543,864 to Cline.

Claim 5:

While Grossman fails to teach magnets on the window cover for holding the ventilation flap in position, the use of magnets to secure a cover is known in the art.

Cline teaches a magnet (48) for sealing the cover to the frame. In view of Cline, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use magnets for holding Grossman's window panel in an open or closed position, as Grossman is interested in providing an effective and efficient cover system (column 2, lines 48-51).

Allowable Subject Matter

Claims 1-3 are allowed.

Claims 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Prior Art Made of Record

The following patents disclose detachable covers: US Patent 5,271,449; US Patent 4,510,986; and US Patent 5,368,085.

Art Unit: 3635

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Naoko Slack whose telephone number is (703) 305-0315. The examiner can normally be reached on Mon-Fri (6:00 am-2:30pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl D. Friedman can be reached on (703) 308-0839. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
